

AB

Monday – Watch all of the videos on my web site (Chapter 9) that have to do with l'Hopitals. I have given this assignment earlier – but had to rescind it – so you may have it done already. Section 9.2 is not optional, and MyMathLab must be done by Wednesday.

Tuesday – We are going to go over three free response questions – 2018 – 1, 4, and 5. I will have the link posted on my site for me doing the work – Even though I am not collecting these, please do these Tuesday morning before looking at my answers. See how many points you get for each free response question. My goal will to eventually get you a point or two above the national average. Note that you may not do well at first. You will do fine eventually. Note also that all of these answers are online – do not look at them. Do the best you can. Write something for each answer so that you can see what partial credit you would get! Spend about 8 minutes on each question.

Wednesday – Sample Exam I MC is due.

Thursday – Google Hangout Questions

Friday – 1997 MC is due, and have 2017 questions 4 and 5 complete. Look at those videos, and drop me an email with the photo of your work on those two questions – with them scored after watching my video.

BC

Monday – 2018 – Do questions 1-4 in the free response. Then watch my videos of the answers. Send a photo of your work to me after you have scored your work so that I can see how you are doing.

Tuesday – Sample Exam I MC is due

Wednesday – 1997 MC is due

Thursday – do 2017 1, 3, 4 and 5. Send these to me after you have scored them. Google Hangout questions on the two multiple choice tests

Friday – Work on 1998 to be turned in on Monday by 9 am.
