

BWE

iPad Rules and Consequences

Why Now?

In short, we are helping students be successful by curbing habits regarding iPad usage during the school day. We found a need to address iPad use, and we are hoping to add another layer to our PAWS program regarding purposeful and responsible use of technology by students.

New Rules

- iPads need charged every night.
- Apple-provided wallpapers will be used for backgrounds and lock screens.
- No personal photographs or videos unless for a project as directed by an adult.
- Loaner iPads will no longer be given if an iPad is left at home.
- iPads will be closed and carried like a book in any instance where a student is in the hallway.
- iPads will only be used at recess as directed by an adult for make-up work.

Home Help

You can help us at home by establishing a routine for each evening where iPads are charged and packed in backpacks for the next day!

Resources

Please consider visiting our home iPad use resource page.
