### PUBLISHING STUDENT WORKS AND PHOTOGRAPHS/VIDEOS ON THE INTERNET

As part of your son's/daughter's educational program at North Allegheny District, a District employee may post your child's picture, video, or project on the District's website or on professional social media accounts. Such works may include: a story or poem; a graphic or photograph; a science or research project; a collaborative project with other students; or a video presentation. Individuals with Internet access will be able to view your child's work, picture, or video. We believe celebrating and sharing our students' accomplishments is an effective way to promote teaching and learning. **Your consent is implied unless you opt-out by sending a written note to the main office of your child's school.**

Guidelines for publishing student works and photographs/videos on the District's website are as follows:

- Student works, photographs, or videos will not include student's last name, phone number, street address, box number or names of other family members unless the parent/guardian approves individual requests. The individual requests and subsequent approvals or denials will be documented by the District.
- Only a student's teacher may be listed as a contact person on any student project.
- All documents, pictures, or videos will be edited and approved by a District employee prior to publication on the District's website or professional social media accounts.
- All documents, pictures, or videos must conform to Board policies and established school guidelines. The District reserves the right to refuse publication of any material on the District website.
- Images and recordings created for the purposes of professional development will not be released to other organizations or posted to a public internet domain.
