

Internet Resources

Game Goo- <http://www.aerobics.com/gamegoo/gooey.html>

This website offers alphabet recognition, and letter-sound correspondence games. Tina's World game is great for learning how to follow three step directions.

ABCya-<http://www.abcya.com/>

This website has math and communication arts games. Some great games on here include sight word bingo, connect the dots in alphabet and numerical order, and alphabet sliders.

Starfall- <http://www.starfall.com/>

Starfall is great to learn and review letter sounds. Once students master these sounds they can play word family games, and read short decodable stories.

Kinderweb- <http://www.kinderwebgames.com/>

Kinderweb is a collection of games that review colors, shapes, letters, and numbers.

PBS Kids- <http://pbskids.org/>

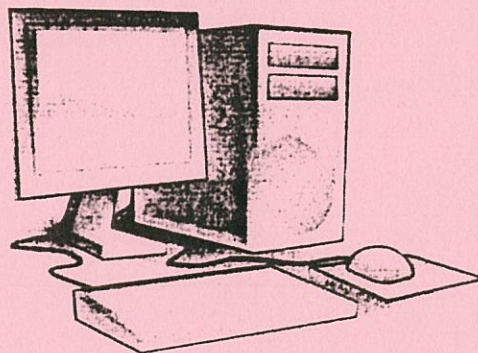

PBS kids has great literacy and science games featuring some of your child's favorite cartoon characters like Arthur, Clifford, and Word Girl.

Kindersite- <http://www.kindersite.org/>

This website features a collection of links to many different games, songs, and books.

Twisty Noodle- <http://twistynoodle.com/>

This website allows you to customize letter and number worksheets to D'Nealian style writing. Create your own or use a premade page.

Apps- For when they just HAVE to have your phone!

CatLite

Read Across America Day is coming up. This app will have students listening and reading Dr. Seuss.

Little Speller Sight Words

This app says a sight word or decodable word, and then has the player move letter tiles to build the word.

Build A Word

Build a word has multiple levels ready to play. Students listen to the word, and use the letters tiles to build the word. As students touch the letter tiles the sound will be given to help them build the desired word.

BOB Books

This app also has multiple levels of play. Students read short sentences and build decodable words. When a student is building a word the app will blend the sounds. Great for all levels of early readers!

Phonics Fun

Phonics fun will have students practicing beginning sound recognition.

Silly Sentences

The Silly Sentence app allows students to play a few different games. Students will have to drag a word to match a picture, identify the vowel sound in words, and match the correct sentence to a picture.

Tiki Bear Vowels

This app has three different games for vowel identification practice.
