

Week 30 3rd Grade

Robust Vocabulary

Magnify

When you magnify something, you make it look larger than it actually is.

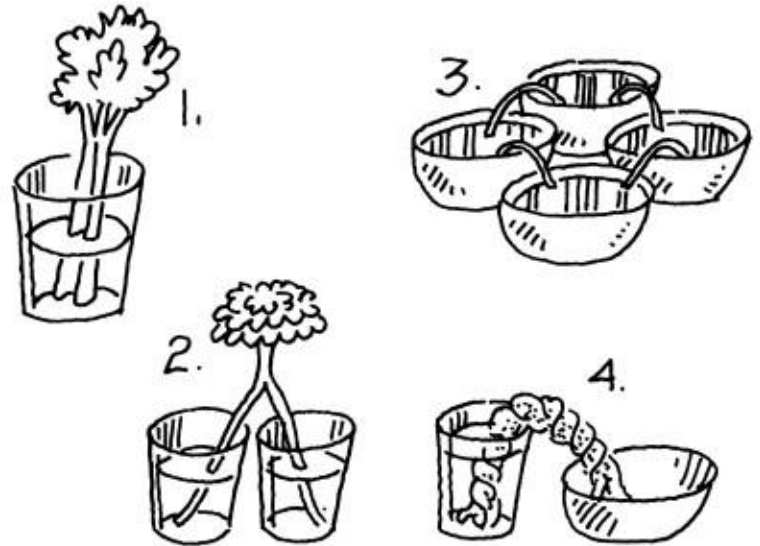

We use the telescope to magnify the stars in the sky.

Observed

If you observed something, you watched it carefully to learn more about it.

Our class observed the science experiments and record the outcomes.

Generate

To generate something is to produce it.

Our class generated get well cards for a sick classmate.

Confirm

When you can prove something is correct, you can confirm it.

The A+ on my test confirmed I had practice my spelling words.

Picturesque

Something that is picturesque is pretty enough to be in a picture.

The sunset was a picturesque view.

Safeguard

To safeguard something is to protect and guard it.

When you blow your nose into a tissue, you safeguard others from your cold.

Expedition

An expedition is an adventure or a journey to a new place.

Astronauts made an expedition to the moon.

Uncharted

If an area is uncharted, there are no maps of the place.

The explorers found uncharted trails in the jungle.

Aligned

When two things are aligned, they match up perfectly.

We aligned the books on the shelf.

Occur

When something occurs, it happens.

We observed the experiment to see what result would occur.
